COVID-19 Update

In these challenging times, the health and wellbeing of our staff, customers and suppliers are our first priority. Rest assured that this will remain our priority now and in future weeks.

Actions that have been implemented throughout the business to date include:

- increased focus on personal hygiene for all staff with additional sanitising facilities available throughout our building.
- staff are regularly provided with the most up to date information from government authorities as well as health authorities on how to monitor for signs and are asked to refrain from coming to work if they exhibit symptoms or are at risk.
- increased cleaning across high traffic touching surfaces.

Our team members are taking every precaution to maintain their own health and that of our customers. We are continually implementing adjustments as information becomes available.

This communication is to let you know that **we are open for business as usual** unless specifically instructed by government authorities. We have been assured by our timber and metal suppliers that their inventory levels remain strong and there will be no interruption to supply in the short-medium term. Note: Post Supports are purchased ex China and our current purchase order has been delayed for despatch until at least the end of April.

Let's all play our part during this time to ensure our families, neighbours, friends, co-workers and broader community remain safe and well. Things may get worse before they get better. So let's rise to the challenge by practicing kindness and consideration toward each other. We WILL get through this.....

Please stay safe.

The Team @ Wilmplex Pty Ltd
